02 / NEW HOMEOWNERS

New home. Fresh routine.

A practical first-week laundry checklist for new homeowners.

1 Check before the first load.

Save the manuals. Look for worn hoses or leaks without moving appliances. If installation is uncertain, have a qualified professional check it before use.

2 Sort, then measure.

Read clothing labels, empty pockets and separate lint-shedding towels. Treat stains as directed. Use the labeled detergent dose; choose HE detergent when required.

3 Use energy wisely.

Wash full loads within the machine's capacity. Choose cold water when care labels and cleaning needs allow. Air-dry items when their labels permit.

4 Give the dryer a clean start.

Clean the lint filter before and after every load. For vented dryers, keep the duct and outdoor outlet clear. Have restricted or damaged venting serviced.

5 Put upkeep on the calendar.

Follow the washer's cleaning schedule. For a ventless dryer, follow its filter and condensate instructions. Save service dates and set reminders from each manual.

6 Put products away safely.

Keep detergent in its original, closed container, out of children's sight and reach. Secure packets and handle them with dry hands. Follow every product label.

One simple move-in rule

Leaks, damaged connections or unusual shaking? Stop using the appliance and arrange qualified help. This sheet is a checklist, not an installation or repair manual.

Unpack. We'll handle laundry.

Wash & fold with free pickup + delivery

$1.69/lb · 15 lb minimum ($25.35). Specialty items priced separately. Confirm your address and schedule when booking.

BOOK PICKUP

For ordinary washable laundry. No dry cleaning or appliance installation/repair.

6604 W Bellfort Ave, Houston, TX 77035 **(832) 834-5689**
